

CONFIRMATION

No. 30371802E/BU/13.09.18

Deutsche
Akkreditierungsstelle
D-PL-12008-01-00

In accordance to the ASTM standard method WK26064
(dated September 2014) the gasket type

KLINGER_MLX (MULTI LAYER XTREME)
DN40/PN40

of the gasket manufacturer

Klinger AG Egliswil
Webereistraße 1, CH-5704 Egliswil

was verified in a blowout safety test with the following test conditions:

test method:	HOB T1	
initial gasket stress:	30	MPa
temperature of exposure:	400	°C
test pressure (absolut):	250	bar
period of leakage measurement:	2 x 15	min

For this material no blow-out occurred at a temperature of 400 °C and an initial gasket stress of 30 MPa up to an internal pressure of 250 bar. Therefore the gasket is in compliance with the requirements of ASTM WK26064 for blowout safety.

This confirmation is only valid in combination with the test report 3037182/-.
